## PROFESSIONAL EXPERIENCE

---

### **Deloitte Consulting LLP**

Washington, D.C. · July 2019 – April 2026

*Infrastructure and Energy Senior Consultant*

- Led federal programs totaling over \$5M, centered on energy regulation/policy, renewable energy integration, transmission infrastructure, and critical mineral mining regulation for agencies including the Department of State, Department of the Interior, and Department of Energy.
- Created commodity cost analyses for government facilities within PJM, MISO, and Europe, saving the U.S. government an estimated \$10 million in energy costs.
- Developed and executed energy transition strategies supporting sustainable infrastructure development, U.S. business development, competitive electricity market creation, and international energy regulation across 8 countries in Europe and South Asia.
- Collaborated with cross-functional teams and external stakeholders — including international utility regulators and federal agencies — to advance energy policy objectives and improve regulatory capacity.
- Designed and facilitated workshops with 200+ energy professionals to share leading practices in renewable energy integration, grid modernization, and policy innovation.
- Led development and provided significant contributions to 30+ technical reports, policy position papers, and briefings on renewable energy, EV infrastructure, critical minerals, wholesale markets, ISOs/RTOs, grid interconnection, and IPP contracting.

*Strategy and Analytics Consultant*

- Delivered policy briefs and reports on competitive energy markets, renewable energy integration, and transmission for the Department of State and USAID, supporting international energy modernization and energy affordability policy.
- Served as lead quality assurance specialist for 50+ project deliverables, ensuring compliance with client standards.
- Provided internal trainings to over 100 employees for the Department of State account's Program Management Office.
- Developed strategic recommendations for energy infrastructure investments and policy frameworks.

### **Concentric Energy Advisors**

Washington, D.C. · July 2016 – June 2019

*Senior Analyst*

- Prepared testimony on utility rate cases and competitive energy market development to state regulators, advocating for cost-effective utility rate structures supportive of infrastructure development.
- Developed utility financial models and analyses to inform energy rate adjustments, cost recovery, and reliability planning aligned with sustainability goals and transmission infrastructure requirements.
- Provided strategic insights to utilities on regulatory compliance and decarbonization initiatives.

### **Florida State Lottery**

Tallahassee, FL · July 2014 – June 2016

*Economic Research Analyst*

- Served as contract manager for the Lottery's market research firm, valued at over \$1 million.
- Increased market research output from 12 to over 30 studies per year by strengthening relationships between the Research Department and executive staff.

- Presented research findings to the Lottery's Strategic Planning Committee, driving research integration into product and ad development.
- Forecasted lottery sales to predict anticipated contributions to Florida's education funding.

**Florida Office of Tax Research, Department of Revenue** Tallahassee, FL · November 2013 – July 2014  
*Research and Planning Economist (Paid Internship)*

- Analyzed the tax impact of proposed legislation on Florida sales tax revenues to guide the Florida Senate and House of Representatives.
- Presented findings at public meetings and addressed questions on the analyses' methodology.

## E D U C A T I O N

---

**M.S. in Applied Economics** August 2014

*Florida State University* · Tallahassee, FL

- Wrote capstone project on alternative methods of funding Florida's highway infrastructure.

**B.S. in Applied Economics** May 2013

*Florida State University* · Tallahassee, FL

- Minor in Business and minor in Italian. Graduated Cum Laude.

**International Baccalaureate & High School Diploma** May 2009

*James S. Rickards High School* · Tallahassee, FL
